

Inland Respite, Inc.

Company Statement on Covid-19 Vaccine

Amid the COVID-19 pandemic, the health and safety of our employees and clients has remained our top priority. We understand the need to stop the spread of COVID-19 and the newly released vaccine is a promising means of doing so. While getting people vaccinated is an important strategy to fight the virus, deciding to get vaccinated is an individual choice impacted by each person's health conditions, allergies, and religious and personal beliefs. Our Company will continue to follow the directives of state and local health agencies regarding vaccine requirements and communicate the information to all stakeholders. We ask everyone to use kindness, compassion and empathy when talking about vaccines. Please respect the individual choice to vaccinate and respect that no-one should be forced to defend that decision either way. These are complex decisions, especially for those with health concerns, allergies or religious, cultural or other beliefs. While the vaccine is one critical way to slow this pandemic, we continue to take the necessary precautions to help slow the spread of COVID-19, which include wearing a mask or facial covering, practicing good hygiene (including frequent handwashing and use of hand sanitizer) and proper social distancing.

If you are interested in receiving a vaccine, you may visit the county website for your residence to find information on appointments. Please contact your HR department if you require any needed documentation for your appointment.
